

Share Registry Services

BoardRoom is one of Australia's leading providers of share registry services, partnering with companies of all sizes, ranging from small private entities through to some of Australia's largest ASX listed companies.

Are you conducting a seed, crowdfund or secondary raising and/or currently managing your registry via a spreadsheet or outdated system? Private Entities can have their share registry managed by a professional provider and give access to the latest online tools via our cost-effective approach.

The cornerstone of our business is our fully integrated and purpose-built registry platform, which underpins all of the services we deliver and allows unparalleled flexibility?
